# TRADE NEWS & PRODUCTS

## NEUROSHELL TRADER LAUNCHES MAJOR UPDATE

Ward Systems Group has released NeuroShell Trader 5.0, which incorporates enhancements such as integrated trading with Interactive Brokers and email alerts, ticker scanning, portfolio trading features, faster optimization, and revamped screen and bar features for efficient design and testing of profitable trading systems. The software now supports second, tick, volume and range bars as well as Fibonacci retracements,

[www.neuroshell.com](http://www.neuroshell.com)

projection, and time lines. The software ships with new-training videos and a comprehensive set of training example charts. NeuroShell Trader users are still entitled to free tech support.

## EXPANDED SQUAWK-BOX COVERAGE

Tradersaudio.com has announced that it has now expanded its squawk-box coverage. In addition to a new website launched in January 2006, the company's squawk service is now available for the Chicago Board of Trade's 30-year and 10-year futures and options and also in eurodollars at the Chicago Mercantile Exchange.

## CUP WITH HANDLE SYSTEMS EXECUTE REAL-TIME TRADES

DEL Associates has released its CupTrade Strategies, composed of six bullish and six bearish trading systems, using TradeStation 8.1 or later. These systems

execute real-time trades, either automatically or with user confirmation. Through several input options, the user has control over exact entry points, percentage of stop-loss and 50-day average volume for breakouts, controls to eliminate "bad-tick" execution, and more. A detailed users' manual provides complete system guidance as well as a section on how to use the strategies to trade options.
